SUBJECT No. 170.

Land Revenue collected within the Seringapatam Municipal limits to be given over to the Municipality.

Mr. V. Rangasamiengar, Seringapatam Municipality.

Mr. N. Srinivasiengar (in the absence of the mover).—The revenue of the Seringapatam Municipality is very poor; but the work to be executed towards the improvement of the town is very great. As a special case, the land revenue derived out of the lands situated within the municipal limits may be granted to the Municipality for some years, as the condition of roads, drainage, etc., is very unsatisfactory, and owing to its slender resources, the Municipality is unable to carry out these works.

Third Member of Council.—Not possible.

SUBJECT. No. 171.

Patels and Shanbhogs of villages benefitted by the new channels to get enhanced *potgi*.

Messrs. Channappa, Yedatore Taluk, and Appaji Gowda, Mysore District Board.

Mr. Channappa.—The Patels and Shanbhogs of the villages benefitted by the Mandagere channel have been attending for the last four years to the collection of contribution and water-rate. The collection thus made comes up to six times the original assessment. Their *potgi* has, however, remained stationary. And additional work is not being remunerated in any way. Their *potgi* may be revised in proportion to the increase in collection work and the revision given effect to from the date of such increase in their work. This may be done, at least, till the next re-survey takes place, if the former suggestion is not possible to accept.

Dewan.—The matter will be considered.

SUBJECT No. 172.

A Third Class Waiting Room and a Goods-shed at Yedatore.

Messrs. Channappa, Yedatore Taluk, and Appaji Gowda, Mysore District Board.

Mr. Channappa.—Much inconvenience is caused to the passengers during the summer and rainy season for want of a Waiting Room in the Railway Station at Yedatore. Also there is no Goods-shed to store imported articles or those to be exported. A Waiting Room may be ordered to be provided.

Dewan.—A Waiting Room has been sanctioned.

Messrs. Channappa and Appaji Gowda.—True, Sir, even the foundation has been laid. But the building is not in progress. And our inconveniences are as many as before.

Dewan.—The Waiting Room will be constructed this year.

SUBJECT No. 173.

An *ane* across Byranahalla.

Messrs. Mir Raza Ali Sahib and Seetharamiah, Hunsur, Taluk.

Mr. Mir Raza Ali Sahib.—An *ane* may be constructed across Byranahalla passing through Lingapura so that the tanks of Periyapatna and Hyrige may be supplied with water. The raiyats are ready to pay contribution.

Dewan.—This is an altogether new scheme and it is not possible to undertake it at present.

SUBJECT No. 174.

A railway line from Yedatore to Coorg *via* Hunsur.

Messrs. Mir Raza Ali Sahib and Seetharamaiah, Hunsur Taluk.

Mr. Mir Raza Ali Sahib.—A Railway line may be opened from Yedatore to Periyapatna *via* Hunsur so as to reach Coorg. We are prepared to meet a portion of the necessary expenditure. Our taluk is very backward and Railway connnection with Coorg may improve it. Also,

there is a Special Magistrate's Court and a Depot there and this Railway connection will not be in vain.

Dewan.—It is not possible for the line to pass through Hunsur? It can only go through Saligrama, Mirale, Ramanathpur, etc.; even this won't be possible for some time to come.

SUBJECT NO 175.

A Sub-Registrar's Office at Maddur.

Messrs. Channaboregowda, Channappa and Narasimhamurthy Rao, Mandya Taluk.

Mr. Narasimhamurti Rao.—A Sub-Registrar's Office may be opened at Maddur for the convenience of people coming from distant villages. On this matter we had waited on the Dewan Sahib also who was kind enough to promise to call for certain information. Last year also the same subject was before this house for discussion and since early consideration was promised, it was withdrawn. But we regret that the same subject has had to be brought up for discussion.

Dewan.—The Deputy Commissioner has addressed the Inspector-General of Registration in the matter. Government await the receipt of the papers.

SUBJECT No. 176.

Third Class Waiting Room at Maddur.

Messrs. Channaboregowda, Channappa, and Narasimhamurthy Rao, Mandya Taluk.

Summary of Discussion.—Arrangements may be made for the early construction of a Third Class Waiting Room at Maddur Railway Station. In the existing Waiting Room not even ten people can stand together and if rains, all the rain water rushes into the building.

Dewan.—Provision will be made in the next year's budget.

Mr. E. Krishnappa.—I solicit permission to remind Government about the delay in the execution of works to the Nanjangud Town Station platform. It is four or five years since, they agreed to execute the work, but nothing has been done beyond that the Railway authorities came, inspected the station area once and laid the foundation for a proper platform.

Dewan.—It will be done when the Chamarajnagar line will be completed.

Mr. E. Krishnappa.—But in the meanwhile, passengers often slip down and get hurt. A good platform is a very urgent necessity. We want also a Waiting Room urgently. The present Waiting Room affords no protection from sun and rain; it is as much as not having it.

Dewan.—Government will consider what can be done in the matter.

Mr. D. S. Hanumantha Rao.—Sir, I have a word to say in regard to the circumstances that have led to the loss in railway income. If kindly permitted, I shall submit them though that is not my subject.

Dewan.— You may send up a note on the subject to Government for consideration.
